

Hammond Transport can load shipping containers for export to countries all around the world. We unload (devanning) using our bespoke container ramps and low mast forklift trucks that are able to drive right in to the container.

We offer the option of consolidating your goods in our warehouse, backed by our warehouse management system, allowing online access and a wide range of stock reports.

We operate a bar code scanning system with wi-fi connected devices, enabling us to provide fast and accurate updates to stock control. Consolidation & distribution of goods is controlled by our in-house team.

Our loading services include:

- > Vehicles
- > Caravans
- > Plant & Machinery
- > Palletised Freight
- > Specialist Items
- > 20ft, 40ft & Flatrack

CONTAINER LOADING & DEVANNING

Hammond Transport operate a diverse fleet of trucks, trailers and specialist vehicles, providing customers throughout the UK and Europe with dedicated direct transport services, urgent time sensitive movements and London accredited deliveries..

We look after the complete end-to-end transportation of your consignment and it never leaves our care! At Hammond Transport, it's personal!

We handle everything from single pallets through to full load consignments. Our specialist transport services offer:

- > Hiab vehicles
- > Flatbed or slide-roof trailers
- > Moffett forklift vehicles
- > Low loader trailers
- > Full air-ride vehicles
- > Sideopening box trailers

We are based just off junction 29 of the M25 motorway, close to the major sea port of DP World London Gateway Port, Felixstowe and Harwich.
